## CONNECTIVITY & MISSION SYSTEMS

The DSI Team brings to market an unmatched portfolio of integration experience stemming from well over 2000 system installations across the majority of commercial derivative aircraft types in operation today. The following lists some of the key systems types our team has integration expertise with:

- ISR, SAR, Weapons Systems
- Ka, Ku, S, & L Band Satellite Connectivity(BLOS)
- Air to Ground Connectivity

Our aircraft integration teams' experience covers all major OEMs of commercial derivative aircraft including but not limited to:

- Airbus
- Boeing
- Embraer
- Textron

## OUR APPROACH

While DSI is headquartered in Florida's "Space Coast", our network and operational reach is truly GLOBAL.

Through utilizing experienced and agile, mobile teams, and through strong collaboration with various national Civil Aviation Authorities, we are expanding on our proven model to deliver high quality service directly to the customer's site of choice.

Our unique operations model allows us to develop tailored solutions for each customer to reduce aircraft ground time and increase operational readiness.

# FLIGHT SERVICES

## FIXED WING & ROTOR WING OPERATIONS CAPABILITIES

- Airborne ISR
- Border Patrol & Security
- Maritime Patrol
- Search & Rescue
- Urban Tactical Tracking
